octagreen

Superior technology, for the best results

The future in paints is here, today! Octagreen invites you to the breath-taking world of superior technology based paints. Paints that usher in a rare, lasting class and character to your exteriors and interiors. Not only that. Being classified as 'Green Paints', the Octagreen range of paints are absolutely environmentally friendly and conform to global 'green' standards.

Taking origin in the 3rd generation green technology, Octagreen paints bring you the best of best in range of colours, elegance and economy. Developed by world-renowned scientists, the Octagreen paints range display exceptional dispersion characteristics, due to their ordered molecule structures.

The water-base range has low VOC and display exceptional anti-fungal/bacteria/algae, hydro-phobic, UV resistance, heat insulation with elastomeric (stretchable to cover cracks) properties. Thus making them the ideal choice for interiors & exteriors.

The select Octagreen range also include transparent coatings for plaster, glass, ceramic, with excellent water repellent, anti-bacteria/fungal and non-polymeric properties.

Come. Choose your favourite colour. While choosing lasting grandeur to your buildings, you're doing a lot to help preserve nature too!
